# Lexington Interurban Lines.

# Blue Grass Park.

During the past fall and winter and continuing now until spring we have paid much attention to the permanent improvements of the park.

We have planted trees and shrubbery, cleared old grass away and sown seed. We expect to have rather a good lawn turf for the coming

We will have new and stronger benches. New walks and improved baseball diamond and tennis ceurts. In the early summer we will plant

Our object is to make the Blue Grass Park a most desirable place for picnic parties. Churches, Sunday Schools, Societies, Lodges and Families will find

it a most desirable place to spend a warm summer day or evening. It will be well cared for and properly policed. All objectionable

persons will be barred from the grounds. Special excursion rates and arrangements for special days and extra car service can now be arranged for.

If you are looking for a place to hold a summer outing kindly communicate with the General Superintendent, at Lexington, Kentucky.

# Model 30.

Four cylinder, 40-horse power motor, 118-in. wheel base, 34x4 tires. Correct model, easy riding, perfect mechanical construction.

#### REDI'S EXPERIMENT.

Out of It Grew the Great Fabric of the Germ Theory.

It was a fixed belief of the ancients that many living creatures could come into existence in a spontaneous fashion, to which allusion has often been made. The true beginning of the germ theory arose out of a ludicrously simple observation made by Redi, a Florentine physician, about the middle of the seventeenth century. He debated with his confreres in Florence the question of the origin of the maggots appearing in decomposing meat. The old view held, of course, that the maggots were bred within dead and putrefying substances. Redi, taking a piece of meat, covered the mouth of the jar in which it was contained with a piece of fine gauze. He beheld the flesh flies, attracted by the smell of the decaying meat, coming to deposit their eggs, after the manner of their kind, in the decomposing substance. The gauze, however, kept them from effecting this natural object, with the result that the eggs were laid on the surface of the gauze and the maggots there hatched out, while the decay of the meat went The Senate Committee on Territories on uninterruptedly without a single

On this childishly simple experiment bill after adopting an amendment the great fabric of the germ theory of today was founded, for if the law of All of the Democrats opposed the amendment except Mr. Clarke of Arkansas. If defeated it would have of maggots and meat it was clear, arkansas. gued Kedi, that it must apply universally. Subsequent experimentation proved the words to be true, and so today, when our attention is focused upon germs or microbes so minute that we might accommodate many hundreds of thousands of them on the surface of a postage stamp, we again come face to wednesday, March 16, 1910

desirable property to-wit: Kentucky House Friday. As the measure has already passed the senate it now goes to the Governer for his pantry. I large veranda, and back signature. ism.-Brooklyn Eagle.

Up to The Governor.

The bill giving the citizens of Louisville the right to vote on a \$1,000,000 bond issue for the purpose of building a new city hospital was passed in the

## Bill Nye's Philosophy.

Bill Nye had the truth well told when he said: "A man may use a collar button; ride on the back coach ings cover thirteen and one-half acres. of a railroad train to save interest on his money'till the conductor gets around; stop his watch at night to save GUTENBERG wear and tear; leaves his 'i' or 't' without a dot or cross to save ink; pasture his mother's grave to save corn, but a man of this sort is a gentleman and a scholar compared to the fellow that will take a newspaper two or three years and when asked to pay for it puts it back into the office and has it marked 'refused'."

### Officials Buy Uniforms.

Mr. O. F. Merpall, of | Cincinnati, representing the Spalding Sporting Goods Co., was in the city yesterday and filled an order for the Paris Base Ball Club for one half dozen uniforms of each of the two sets of uniforms.

### Adopts Pledge for 1910 Crop.

The District Board of the Burley Tobacco Society, which held a two days meeting at Lexington, adjourned Wednesday afternoon at 5 o'clock, to convene again on April 12. In the meantime preparations for the opening of the campaign in this and surrounding counties will be begun by the various boards of control.

The pledges as adopted Wednesday will be printed and distributed and all details will be rushed so that the pooling campaign in all districts may be begun as soon as posisble.

Both the morning and afternoon sessions of the District Board were occupied with a discussion of the pooling contract for the 1910 crop of tobacco. The pledge was unanimously adopted. The pledge is substantially the same as the 1909 pledge and but three changes were made.
